# Supporting you throughout your personal and business journey

From the moment we start out in life we are on a journey.

But how we progress on our journey – from initial steps, through to growth and then maturity – will depend on a set of circumstances which are unique to every one of us.

Along the way there will be financial obstacles that you will need to deal with and opportunities to grasp.

To ensure that you are well prepared for whatever life has in store for you, we can support you with services that are right for each stage of your personal and business journey.

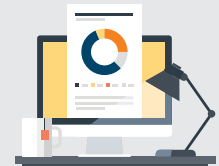

## Start ups

We have helped countless individuals fulfil their dreams and become successful entrepreneurs – we can help your blue sky thinking become a reality.

## Established businesses looking to grow

Looking to take your business to the next level?

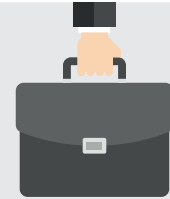

Whether it's additional financing, diversification advice or strategic support, our experts will help make it happen.

## Statutory and voluntary auditing

If your business has grown in turnover, to a point where it requires a statutory audit we will audit your accounts to ensure full compliance.

Even if your company is below the statutory threshold, a voluntary audit can be immensely helpful to ensure you have a true picture of your company's financial health.

## International services

Rapid globalisation, new post-Brexit international trade agreements and the growth of e-commerce all add an international dimension to many UK businesses.

We can help you set up the best accounting and tax procedures to deal with international currency payments and cross-border VAT matters.

## Tax and wealth management

We understand that for many entrepreneurs, their business and personal finances are interlinked.

That's why you need an adviser who sees the whole picture and can offer expert advice and practical support.

## Succession and exit planning

Whether you are considering a new venture or looking ahead to retirement, it pays to plan ahead.

Our experts can help you explore your options and ensure that your handover and exit is handled tax efficiently from start to finish.
