Start Ups

We have helped countless individuals fulfil their dreams and achieve great results by turning their blue-sky thinking into reality.

Established businesses looking to grow

Looking to take your business to the next level? Whether it's additional financing, diversification advice or strategic support, our great experts will help make it happen.

Statutory and voluntary auditing

If your business has grown in turnover to a point where it requires a statutory audit, we will audit your accounts to ensure full compliance.

Even if your company is below the statutory threshold, a voluntary audit can be immensely helpful to ensure you have a true picture of your company's financial health.

International services

Rapid globalisation, international trade agreements and the growth of e-commerce all add an international dimension to many UK businesses.

We can help you set up the best accounting and tax procedures to deal with international currency payments and cross-border VAT matters, while our partners at Reanda International provide you with local knowledge anywhere in the world.

Tax and wealth management

We understand that for many entrepreneurs, their business and personal finances are interlinked. That's why you need an adviser who sees the whole picture and can offer expert advice and practical support.

Succession and exit planning

Whether you are considering a new venture or looking ahead to retirement, it pays to plan. Our experts can help you explore your options and ensure that your handover and exit are handled tax efficiently from start to finish.

What our clients say

“ I have run my business for nearly 20 years and annoyingly I only came across Robert Bean and Grunberg after 18 of them had passed! I had reached a point in business where there was very little to be excited about but Robert and his team have helped me turn things around and given me the desire, guidance and oversight to carry on. I cannot recommend them highly enough and I cannot put into words how grateful I am for all of their help, expertise, guidance and knowledge. Thank you Robert and Team. ”

Robert Montague, Chairman, RKM Communications Ltd

“ As the business of Peter East Associates has grown, we have used more of the services that are available from Grunberg. The Grunberg payroll service removes a monthly administrative burden and has saved us a lot of time. The tax department has helped us navigate through the complexities of Corporation Tax, and we have also used the tax department for shareholder related issues. The difference with Grunberg is that the partners understand their clients' businesses – this makes the advice focused on the issues facing small and medium-sized businesses. ”

Nicholas Mohr, Managing Director/CEO, Peter East Associates Ltd

“ While many businesses of our size tend to select the audit services of the Big Four, we felt that Grunberg had a far more personal and consistent approach to offer. ”

Craig Bullen, Finance Director, IDP Connect

“ They have an extensive knowledge of their field but for me their willingness to help beyond the call of duty has been paramount. Couldn't recommend the firm highly enough and moreover Alexander Kossoff is a pleasure to work with. ”

Richard Dangoor, Sales Manager, Hausman & Holmes Limited
