

Work can be hard. Buying things for work shouldn't be.

As a client of Grunberg & Co, you can get an exclusive discounted deal on Pleo - smart company cards for your business.

→ **Power to your people**

Cut out the tedious, time-wasting admin. Empower your employees to buy the things they need so they focus on what really matters.

→ **Automate spending**

Buy something with a Pleo card. Get a notification straight away. Snap the receipt. Add some basic info, if needed. Pleo will do the rest.

→ **Take care of your team**

See who's spending what, in real-time. Set individual spending limits for each user. No more out-of-pocket costs or reimbursements.

→ **Take care of company money**

Track expenses per category, department or project. Flag anything that doesn't look right with one tap. Block or freeze cards if needed.

"Pleo has revolutionised the way we do expenses in our business. Now far less time is spent on unimportant admin and more time is freed up for important tasks elsewhere."

- Fergus Adamson, Sharky & George
